Digital Signage

Digital Signage is omnipresent both in private and professional environments.

Whether it's about information, advertising, entertainment, orientation or interaction -

Digital Signage offers you diverse potentials to get in contact with your target group.

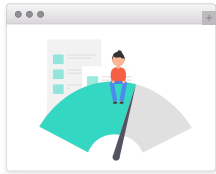

In the highest glacier ski area in the Alps, reliable information transfer in real time is indispensable. To guarantee this, the Zermatt cable cars use our digital solutions.

PlayEverywhere

Simple, intuitive & fast

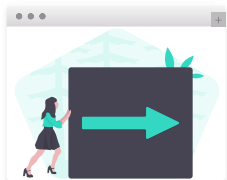

Reach your goal with 5 clicks and within 60 seconds. Without any programming skills, promised!

Individual for your company

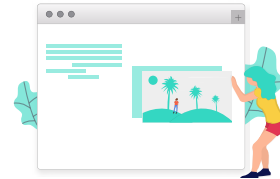

Compliant with your CI / CD - at any time. Application-, Content- and navigation concepts created for your target group.

Future-proof & reliable

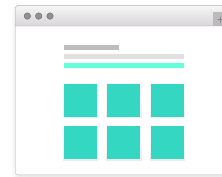

Scalable: Start small and go big. Respond flexibly to future requirements. No experiments - we are your competent partner!

Large field of application

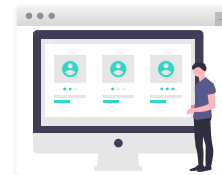

For Information and advertising, orientation and wayfinding, for interaction, room booking and much more.

Full focus on the user

All necessary and important information and actions at a glance.

Visually optimized

A modern and dynamic user interface for an easy overview. No unnecessary menus to keep you from working.

Features

even more added values

Despite all its simplicity, our system offers you all the necessary features:
PlayEverywhere - simple but powerful!
